SCREWFIX HELPS YOU SAVE EVEN MORE TIME AND MONEY THIS SUMMER

Screwfix recognises that for tradesmen, time is money, which is why, to coincide with the launch of its new catalogue, the company has decided to extend its next day delivery time to ensure tradesmen have what they want as soon as they want it.

Tradesmen will now be able to order products from the new catalogue until 7pm, from Monday to Friday, and still take advantage of next day delivery. And with new additions to a range of product lines, customers will have access to even more trade essentials at the best prices.

This summer, tradesmen can also save a massive £100 on a DeWalt 18V Li-ion drill with XR technology, which includes one 1.5Ah battery. Lightweight but powerful, this top-of-the-range drill is Screwfix's front cover deal and is priced at just £129.99.

Screwfix's collection of LAP decorative switches and sockets has also been extended in the new catalogue to include flat plates, which are available in brushed stainless steel, polished chrome and black nickel finishes. In addition new inclusions to the MK Consumer Unit range have been introduced, giving tradesmen a variety of home solutions to offer to their customers.

As well as next day delivery, tradesmen can also order their selected products online or by phone and pick up their items within 5 minutes of placing the order at their nearest trade counter with Screwfix's Click & Collect service, meaning tradesmen won't have to wait long for their trade essentials.

So, whether you're buying products for your latest project, or just looking to find some great deals, the Screwfix catalogue, which is packed full of firm favourites, is available from your nearest trade counter and is this season's trade essential.

For more information on Screwfix's new range of products, visit www.screwfix.com, call 0500 41 41 41 or pick up a copy of the new catalogue at your local Screwfix trade counter or order it online.
