TOP TOOLS, GREAT GADGETS AND PERFECT PRESENTS FROM SCREWFIX

With the festive season just around the corner, Screwfix is helping to create the perfect Christmas wish-list by adding a range of great gifts showcased in a special 'Tools and Gadgets' mini-catalogue.

Screwfix is renowned for its selections of tools, fixings and fittings, for the tradesman, but with the launch of its new range of 'Tools and Gadgets' on 8 November it will also be easing the strain when it comes to Christmas shopping this year. With 64 pages packed full of great gadgets and top tools there is something for everyone, making it easier to fill those stockings without fighting your way down hectic high streets this Christmas.

Great Gifts for Big Kids

Amongst Screwfix's 'most wanted' this year, the Four Channel Metal Gyro Helicopter is an ideal stocking filler for big kids of all ages. With a remote control, 360 degrees precise positioning, a 30-40m range and a variety of speeds, this perfect present will keep the family entertained for hours.

For budding film makers looking to capture those special festive moments, the lightweight and durable Action Camera is just the job and is great for filming on the move, from bike rides to car trips.

The Barska Golf Scope is perfect for anyone who's been bitten by the golfing bug. The state-of-the-art waterproof Golf Scope takes the guesswork out of your golf game by estimating the distance to the pin. With a 50-300 yard range and eight times magnification, the Barska Golf Scope is bound to be this season's must-have golf course gadget.

Handy Hardware

Screwfix is dedicated to offering its customers top tools from leading brands, and this Christmas is no different. The Stanley 12-in-1 Multi Tool, featuring pliers, wire-cutters, knives, a saw, a bottle opener, a screwdriver and a file, is every handyman's dream gadget and lends itself to everyday use in industrial, automotive and domestic settings.

Professional tradesmen and serious DIY enthusiasts alike know that dropping tools in hard to reach nooks and crannies is sometimes unavoidable when it comes to tackling a tricky

job, so the Wera Magnetiser is the perfect choice. The innovative gadget quickly magnetises tools to recover metal objects from out-of-reach places, before demagnetising them again with one swift swipe.

Perfect Power Tools

Men love nothing more than pulling an impressive power tool out of their stocking on Christmas morning, so Screwfix has made exciting additions to its already extensive range of power tools from big name brands. New and exclusive to Screwfix, Evolution 'Pure' power tools are compact and convenient. Running on Li-Ion batteries and 10.8V, the new range includes a drill driver, screwdriver, orbit sander and jigsaw.

The Multifunction Power Station will also be at the top of the Christmas list. It includes a 230V/300W inverter for mains powered equipment, a 10 bar compressor for inflating and a 400A boost power for starting cars with flat batteries, and is useful at home, in the car and on the campsite.

John Mewett, marketing director at Screwfix, comments: "At Screwfix we know how busy this time of year can be, so we like to make Christmas shopping as easy as possible for our customers. There is a great range of exciting products and innovative tools in our 'Tools and Gadgets' catalogue, and we are confident that it will act as a perfect wish list for our customers and help them with their gift ideas over the festive season."

The new 'Tools and Gadgets' catalogue can be picked up from your local Screwfix trade counter, or you can visit www.screwfix.com or call 0500 41 41 41 for more information.
