## REWARDS

Handtools for professionals

### Screwdriver Set

1600A0168F

These screwdrivers are extremely robust thanks to their metal shaft and metallic striking cap. Their soft grip also makes them particularly ergonomic. The hexagon head socket for open-ended and ratchet spanners allows for greater transfer of torque.

### Plier Set

1600A016BG

Thanks to the leverage effect, up to 30% less physical exertion is needed. The pliers also feature a soft grip and anti-slip edges to ensure they can be used safely.

### Tape Measure

1600A016BH

Measuring longer distances is simple thanks to the strong hook that sticks to metallic surfaces. It also features a robust 27 mm-wide nylon tape that can extend up to 2.7 m without bending. The measuring tape is labelled on both sides to ensure that the measurement can be read off precisely from all angles.

### Level 60 cm

1600A016BP

This spirit level has a unique additional viewing window on the front end. This allows vertical measurements to easily be read off from the front. It is made from aluminium and has additional shock-absorbing end caps for extreme robustness and durability.

### Level 25 cm

1600A016BN

This spirit level has a unique additional viewing window on the front end. This allows vertical measurements to easily be read off from the front. It is made from aluminium and has additional shock-absorbing end caps for extreme robustness and durability. This model also features a magnetic front end.

### Knife Set

1600A016BM

A folding knife that is flexible and easy to operate, combined with a durable, handy and ergonomic cutter knife.
